I searched my files...don't have one. However, I believe the trustees got involved because, at the time, R6 had an in-house NOAA person who was the lead trustee, whereby, I just walked over to her and we got the trustee team (TCEQ, wild life, parks, etc.) together and went from there. The in-house federal wild life and fisheries person can help you start; he is always one of the trustees.

David - do you have a Malone letter giving the Trustees & TCEQ the opportunity to join in negotiation on a remedy? If so, I need a go-by for Gulfco & would appreciate a copy.

Thanks,

Gary
